

Express Scratch Repair™

Mobile AWX®

COLORCUBE™ Toner System

This mobile repair system is ideal for dealerships without bodyshops as well as a perfect solution for mobile repair technicians.

TONERS AND COLORCUBE™ CONTAINER ARE SOLD SEPARATELY

Customer Order Steps:

STEP 1 — Order ESR Mobile AWX® 6 oz. toners from your local Sherwin-Williams Automotive Finishes Sales Representative or automotive branch.

- Replacement labels for each individual toner are available through your local Sherwin-Williams Automotive Finishes Sales Representative or automotive branch. See ad-service number for 6oz bottle labels as shown on the back.
- AWX® toners are currently set up to be sold in a new 6 oz. option. Bottles must be filled to 6 oz. with an AWX® toner (6 oz. = 170 grams) to comply with the label information. Plastic bottle approved for AWX® ONLY. We do not recommend using these bottles with solvent-borne paint.
- Labels will be placed on fully filled AWX® toner bottles before delivery. The batch date of the toner will be on the 6 oz. bottle in the open space on the label back.
- Contact your local Sales Representative or automotive branch for AWX® 6 oz. toner system pricing.

STEP 2 — Customers obtaining a full ESR Mobile AWX® Toner system can also purchase a COLORCUBE™ Toner System container to store and organize all toners. The COLORCUBE™ Toner System container will come fully assembled with customer reminders and information inside. You can order this item directly from your Sherwin-Williams Automotive Finishes Sales Representative or automotive branch - part #CLRCUBE1.

COLORCUBE™ Toner System Container Pricing = \$422.08

(AWX® toners are not included in COLORCUBE™ Toner System container)

Sticker sheets with product numbers are available to identify products in the COLORCUBE™ Toner System container. Please order through your Sherwin-Williams Automotive Finishes Sales Representative or automotive branch. Reference ad-service number AS2971.

SPECIAL NOTE —

Reference AWX® Product Data Sheet AS2667 for application information, regulatory data, as well as additional products needed to comply with Sherwin-Williams Best Demonstrated Practices for Express Scratch Repair™.

*Remember to store at 40°F or above when transporting.

Toners are not included in COLORCUBE™ container

Express Scratch Repair™ Mobile AWX® COLORCUBE™ Toner System

Customer Information

- Express Scratch Repair™ AWX® toner bottles must be hand-agitated for 15 seconds before each use.
- Please reference the AWX® Product Data Sheet (AS2667) for application instructions as well as other important information.
- For extended periods of non-agitation each bottle must be hand-agitated for 60 seconds. We recommend this be done at least once a month.
- If a bottle sits idle for a period of 12 months, hand agitation could become difficult.
- Please follow proper disposal methods for all waste. Each bottle should be rinsed out and dried before disposal.
- It is important to practice good inventory management of any waterborne product, as the shelf life is shorter than that of solvent-borne paints. Shelf life for chromatic toners and pearls is 36 months. Shelf life for aluminums is 24 months. Shelf life for 4010310, 4010350, and 4010401 is 18 months.
- Protect from freezing. Store at 40°F or above. Paint should be 60°F or above when spraying for optimum performance.

Warranty

Please refer to AWX® Limited Lifetime Guaranty for product listing and guaranty guidelines.

Paint Usage

CREATE A COLOR LIBRARY SPRAYOUT FOR EVERY JOB.

Check Prospector® Color Reference System before mixing color. Quantities for basecoat are based on two coat coverage.

Variables: Gun & Gun set-up, Painter, Car (sizes of panels)

Reference all clearcoat, undercoat, and basecoat Product Data Sheets before use.

Basecoat = 4-6 oz.

Clearcoat for blend panels = 8-10 oz.

Clearcoat for side panels = 10-14 oz.

Clearcoat for bumper = 20-28 oz.

FG= Finished Good (6 oz bottles) currently available.
